

LIVE TRADING TOOL (Betpal)

Boost your live trading efficiency

Give your traders the ability to manage dozens of markets from multiple matches simultaneously, only with Betradar's Live Trading Tool (Betpal). The perfect complement to our Live Odds Service, Betpal gives you the flexibility to control own odds depending on your liability.

Product features

- Simultaneous management of multiple matches, with the option of fully automated trading
- Complete flexibility in trading your own events and markets, even detached from Betradar's live coverage and odds
- Fast and efficient event and match configuration through pre-defined templates

Maximum flexibility and operations control

- Modular dashboard providing all information at a glance
- Full control of all live events with the option to close and open individual markets
- Detailed information of all processes, such as bookings and cost histories
- Comprehensive alert system with intuitive colour visuals help traders focus where needed
