

SIMULATED REALITY TENNIS

AI driven product developed for professional sports matches

Add an entertainment factor to your sportsbook like no other, with the very best in live tennis action based on the most comprehensive, real-life data in the market. Featuring a host of pre-match and live odds and data, Simulated Reality Tennis draws on the company's vast sports data and artificial intelligence to provide you with year-round tennis betting opportunities. Analysis shows that punters who bet on Simulated Reality Tennis will place 2-times more bets on tennis than punters that don't.*

Simulated Reality punters place **2X MORE** tennis bets*

AI-driven concept reflecting player form and match play

Drive bet engagement through game visualisation and statistics

DISCLAIMER: It is the responsibility of each operator to comply with the relevant rules and regulations of each jurisdiction in which it is operating. The Simulated Reality product offering might be subject to applicable territorial conditions, such as approval by regulatory authorities or other compliance requirements.

Operating this product on the USA territory and in other territories where betting on the Simulated Reality product offering is explicitly prohibited, is not permitted.

The monitoring of the Return-to-Player (RTP) for regulatory purposes is the sole task of the Simulated Reality operators, the theoretical RTP is provided by Sportradar but this can be changed by each operator to its own needs. Sportradar is not able to monitor this as it does not oversee the financial transactions with the end-customers of the Simulated Reality operators.
