

SIMULATED REALITY

No additional charge
No further integration required

Bring live sport back to your sportsbook with our ground breaking Simulated Reality games, an AI driven product developed for professional sports matches. Give your customers the chance to complete current European soccer seasons with all remaining fixtures scheduled to be played as per their original date and kick-off time.

Leveraging AI and machine learning capabilities, Simulations reflect team form and normal match play – creating a sports betting experience that is as close to real life as possible including game analysis and league tables.

Based on historical soccer database, statistical output from over half a million matches and with no integration effort needed, Simulated Reality drives the innovation of your Sports Betting Offering.

50+
betting markets
per matchday

Highlights

Full 90 minute matches from the top-tier soccer leagues (England, Germany and Spain)

Replica matchday experience with multiple kick-off times (FRI-MON)

50+ Pre-match and Live Betting Markets available per match

Drive bet engagement through game visualisation and statistics

AI-driven concept reflecting team form and match play based on 50,000+ soccer matches

No integration effort required

DISCLAIMER: The Simulated Reality product offering might be subject to applicable territorial conditions, such as approval by regulatory authorities or other compliance requirements. Please be advised that such restrictions exist amongst others for operating the Simulated Reality within the UK and Maltese territories for which we currently do not offer this product. It is your responsibility to comply with the legislation of each jurisdiction in which you are operating. Operating this product on the USA territory and in other territories where betting on the Simulated Reality product offering is explicitly prohibited, is not permitted.

For more information on how our Simulated Reality product can take your sportsbook to new heights contact one of our representatives at sales@betradar.com or visit www.betradar.com/betting-services/simulated-reality/
