The highlights

- Single-match betting with new cycles every minute.
- All the major betting markets such as 1X2, Under/Over, and Correct Score.
- Clear and engaging user experience, including a countdown to the next match.
- Simple integration and easy set up through our Remote Game Server.

How it works

Choose 3 top European countries to offer your customers, with 16 teams from each. No league tables, no cups, no complications, just single matches.

The matches last 3 minutes, with a new one starting every minute. So, customers don't have to wait to join the action and they don't have to figure out the impact of one result on another.

Simple, easy virtual sports betting.
